

Environmental Friends

KS1

Monday - Science

Watch this video about making compost and then answer the questions.

<https://www.youtube.com/watch?v=cBkBwVFFEWw&t=103s>

1. How is compost made?
2. Why is it good for the environment to make compost?
3. Draw some items that go in the compost.
4. If you would like to see this in practice you can try burying something compostable in the garden you could try doing this with an apple core. Remember to mark where you buried it. Try digging in up again in a week. What has happened?
