KS4
Thursday - Mathematics

Spiderman Transformations

Describe what transformation Spidey has used to get from position A to B and then to C, and tell our superhero how he could have got straight from position A to C and saved energy to fight crime.

Make sure that you fully describe each transformation, using equations or names of lines.

Spidey's Movements	Description

Extension

Our hero has got a bang on the head and is performing some slightly trickier transformations.

Make sure that you fully describe each transformation, using equations or names of lines.

Spidey's Movements	Description
