

Food Glorious Food

KS2

Friday - Art

We are going to create pictures of fruit trees today.

In this box write down as many different fruits that you can think of.

We are going to be drawing trees like the ones below.

What do you notice about the fruit in these trees.

Firstly there are lots of different types of fruit. Also some of the fruits are whole and some of them are sliced.

You need to use lots of fruit in your pictures and it can be sliced or whole fruits.

Firstly draw the trunk and branches for your tree and you can colour these in.

Next in a faint pencil draw the outline of your tree, you can have your tree in any shape. E.g. circles or hearts like the one above or another shape of your choice.

Then fill that shape with as many pictures of fruit as you can. Try and fill in any of the gaps. You can also colour these.

When you are finished rub out the faint pencil outline of your tree.
