**Wednesday - Maths**

**Magic Squares**

In these maths problems the numbers in each row and column must add up to the same number. This is called the magic number. These ones are trickier as they include negative numbers too. Can you work them out?

	+1	+11
+8	-3	

Magic Number = 3

+13		
	+2	+8
		-9

Magic Number =

+42		
	-1	+7
		-44

Magic Number = -3

+8.6		
-4.2	+2.5	
		-3.6

Magic Number =
